

Dynamic Glove Sizing

Use these sizing charts to measure the width of your palm and the length of your fingertips. This will show your size in this particular glove. If your hand falls somewhere in between two sizes, try on samples of both sizes of to see which has a better fit.

**Print page to scale to ensure the ruler measurements are accurate.*

Place widest part of your hand at the left side of this chart and measure to the opposite edge.

Place knuckles at the bottom of this chart and measure to the tip of your middle finger.
